

Company At-A-Glance

Neo4j, the world's leading graph database, helps businesses create new products and services and reimagine existing ones, by bringing data relationships to the fore.

Forrester Research:

"Over 25 percent of enterprises will use graph databases by 2017."¹

Gartner Research:

"Graph analysis is possibly the single most effective competitive differentiator for organizations pursuing data-driven operations and decisions after the design of data capture."²

"Neo4j has enabled us to expand beyond our initial limited use cases to address a much broader set of problems."³

- Sven Junkergard,
CTO, Zephyr Health Inc.

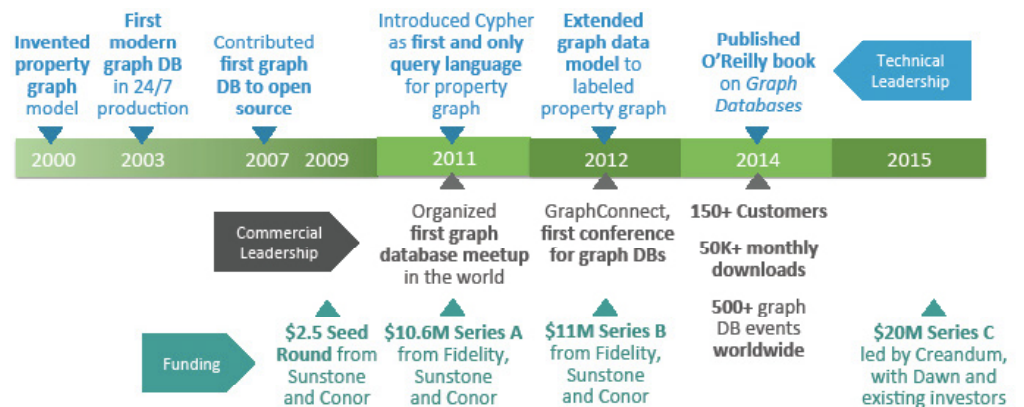

Neo4j Overview

PRODUCT

- World's leading graph database
- 150+ customers including over 50 of the Global 2000
- 500K+ downloads, adding 50K+ per month

NEO TECHNOLOGY

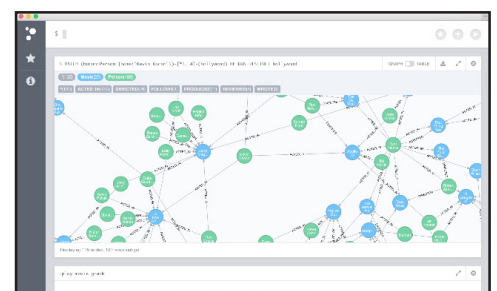

- Creator of Neo4j
- 90+ employees in Silicon Valley, London, Munich, Paris and Malmö
- \$45M in funding from Fidelity, Conor, Sunstone, Creandum, Dawn Capital

Unlocking Value from Data Relationships

To **unlock and maximize value**, relationship data must:

- Be available as a **graph or network** of connections
- Be available in **real-time** regardless of the number and complexity of the relationships
- Be **easily managed** to modify existing and add new relationships

Company At-A-Glance

"Our Neo4j solution is literally thousands of times faster than the prior MySQL solution, with queries that require 10-100 times less code. At the same time, Neo4j allowed us to add functionality that was previously not possible."⁴

- Volker Pacher,
Senior Developer, eBay

COMMUNITY AT-A-GLANCE

20,000+ Meetup members in 25 countries

18,000 developers trained through our online and classroom programs

Average 5-10 live Neo4j events weekly globally

Customer Examples

Delighted customers with reimagined recommendations that connect masses of complex buyer and product data to gain super-fast insight into customer needs and product trends.

"Our Neo4j solution is literally thousands of times faster than the prior MySQL solution, with queries that require 10-100 times less code. At the same time, Neo4j allowed us to add functionality that was previously not possible."

- Volker Pacher, Senior Developer, eBay

Neo Technology is the creator of Neo4j, the world's leading graph database that brings data relationships to the fore. From companies offering personalized product and service recommendations; to websites adding social capabilities; to telcos diagnosing network issues; to enterprises reimagining master data, identity, and access models; organizations adopt graph databases to model, store and query both data and its relationships. Large enterprises like Walmart, eBay, UBS, Nomura, Cisco, HP, and Telenor, as well as startups like CrunchBase, Medium, and Polyvore use Neo4j to unlock business value from data relationships.

Neo Technology is headquartered in San Mateo, CA, with offices in Sweden, UK, Germany, France, and Malaysia. For more information, please visit Neo4j.com.
